I'm using and it displays the URL correctly. A: One of the things you have to keep in mind is the structure of a http address. Lets say you have this URL: Because the / is the path to the server this would be a: but the full URL would be: (a) Technical Field of the Invention The present invention relates to a flexible connecting arrangement. More particularly, the present invention relates to a flexible connecting arrangement for connecting a cable to an electronic component. (b) Description of the Prior Art The flexible connecting arrangement of the present invention mainly consists of an adhesive, a cable and a terminal. The terminal is applied to a circuit board to be connected to the electronic component. The terminal has one end for connecting to the cable and the other end is provided with a flexible portion for attaching to the adhesive. The adhesive is a liquid or an extruded product, which is spread over the surface of the electronic component and may be connected to the cable for fixing and electrically connecting the electronic component to the cable. A first conventional flexible connecting arrangement as shown in FIG. 1 is a flexible connecting arrangement for connecting a cable to an electronic component on a circuit board. The flexible connecting arrangement 1 is made up of a flexible base 2 and a plurality of terminal members 3. A cable 4 is connected to the flexible base 2. Each terminal member 3 has a first end 5 for attaching to the flexible base 2 and a second end 6 for connecting to the cable 4. The first end 5 of each terminal member 3 is secured to the flexible base 2 with adhesive 7. The second end 6 of each terminal member 3 has a hook portion 8 for connecting to the cable 4. Therefore, the cable 4 may be connected to the electronic component by means of the flexible connecting arrangement 1. A second conventional flexible connecting arrangement as shown in FIG. 2 is a flexible connecting arrangement for connecting a cable to an electronic component on a circuit board. The flexible connecting arrangement 1 is formed of a flexible base 2 and a plurality of terminal members 3. A cable 4 is connected to 82157476af
