Read honest and unbiased product reviews from our users at.Download the PDF here The raid on compound 70 of Bin Laden and his associates, who were surrounded in the compound's Tora Bora cave on the night of May 3, 2011, produced many disturbing images: a decapitated head on a bloody bed; a body impaled on a fence; a child dead from a gunshot wound; and a male adult with a distinctive facial scar. But one image in particular is rarely mentioned: a decapitated, headless body with a mock burial. What purpose might such a scene have? In a recent study published in the Journal of Psychiatry and the Law, two Yale University law professors, Justin Marceau and Barbara Olshaker, say that from its earliest days, the U.S. government treated the production and dissemination of those "mock burials" as criminal behavior. "The mocking of the dead, at least in pre-modern times, was generally accepted as a criminal behavior," Marceau and Olshaker note. "The English common law, for example, has traditionally punished those who, without provocation or excuse, carried out a mock burial of a person already dead." Marceau and Olshaker assert that the government has never really left its vestigial criminalization of burials intact, even in cases involving highly unusual circumstances and sensationalistic imagery. "The government has engaged in mock bur 82157476af
